Certification of Biorisk Management Professionals

Certification Program

Ensuring Quality Biorisk Management Through Certification of Professionals

A not-for-profit non-governmental organization, the International Federation of Biosafety Associations (IFBA) manages global biological risks through a standardized measurement of competency and certification of professionals in the following technical disciplines:

- Biorisk Management
- Biological Waste Management
- Biocontainment Facility Design, Operations & Maintenance
- Biosecurity
- Biosafety Cabinet Selection, Installation & Safe Use
