

International Federation of
Biosafety Associations

www.InternationalBiosafety.org

Working on the frontlines, and often behind the scenes, biosafety professionals are playing a major role in the fight against the COVID-19 pandemic. We understand the challenges you face, and that to be successful and sustainable, your approaches must be risk-based and locally driven.

Help us celebrate how you have implemented biosafety practices related to COVID-19 by sending in a photo or short video. The IFBA will publish the best submissions on our website and the top 3 winners will receive a free online IFBA professional certification exam!

Send in your submissions to:
