

IFBA Global Mentorship Program

The **IFBA Global Mentorship Program** provides accessible support to emerging biosafety and biosecurity professionals around the world through **virtual program delivery**.

A **local, South-to-South** approach to mentorship, the IFBA Global Mentorship Program supports community-led capacity building in biosafety and biosecurity workforces.

IFBA Global Mentors are carefully selected, serving as invaluable sources of technical advice for their mentees. **IFBA Global Mentors have two IFBA Professional Certifications.**

IFBA Global Mentors also **collaborate with each other** to **discuss and present solutions** to foundational and emerging issues in global biosafety and biosecurity.

Together, IFBA Global Mentors and Mentees will form an **active, dynamic community** of biosafety and biosecurity professionals poised to develop new skills and **connect with their global and local professional networks.**
