

Women's Network for the Global Partnership's Signature Initiative to Mitigate Biological Threats in Africa

International Federation of
Biosafety Associations

About the Event

In partnership with **Global Affairs Canada (GAC)** and the **Global Partnership Against the Spread of Weapons and Materials of Mass Destruction (GP)**, the **International Federation of Biosafety Associations (IFBA)** is pleased to **host an in-person workshop** to develop the ***Women's Network for the Global Partnership's Signature Initiative to Mitigate Biological Threats in Africa***. Gender equity and robust engagement of local women professionals are prerequisites to sustainable health security, which is a key outcome to the Network's development.

Hosted at the African Society for Laboratory Medicine's (ASLM) biennial conference, this half-day workshop will further define the Network's **strategy**, and develop a tangible set of **objectives** and **priority activities**, the Network's **governance structure**, and **operational framework**.

Join us at the Workshop!

Where: African Society Laboratory Medicine Biennial Conference, Cape Town International Convention Centre, Cape Town, South Africa

When: Tuesday, December 12th, 2023, 9:30am-1:30pm

Primary Contact: Stephanie Norlock, IFBA Senior Program Officer, s.norlock@internationalbiosafety.org
