

# IFBA LATIN AMERICA AND CARIBBEAN MENTORSHIP PROGRAM

## PROGRAM DETAILS

The **IFBA Latin America and Caribbean (LAC) Mentorship Program** is an intensive **7.5 month virtual program** that **supports emerging LAC biosafety and biosecurity leaders** through knowledge transfer and professional networking.

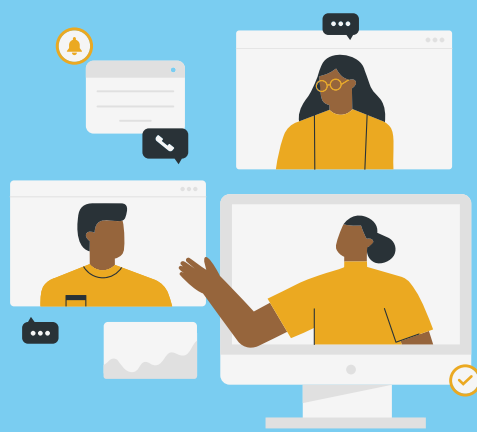

## FROM MENTORSHIP TO LEADERSHIP

Develop the **confidence to advocate for and implement** internationally recognized biosafety and biosecurity **standards, guidelines, and policies** that are **relevant to LAC**

## PROGRAM ACTIVITIES

**Collaborate** with colleagues to **discuss** emerging biological threats, **network with experts** from LAC and beyond, **become familiar with biosafety and biosecurity tools and resources**, and incorporate acquired knowledge into a **project**.

Together, IFBA LAC Mentors and Mentees will form an **active, dynamic community** of biosafety and biosecurity professionals poised to enhance their skills and **connect with their global and local professional networks**.
