

BSL4ZNet

Biosafety Level-4 Zoonotic Laboratory Network

2026 BSL4ZNet Virtual International Conference

Delivered
in English only

Wednesdays between May 13 and June 10, 2026

Join scientists, program leaders, and high-containment specialists from around the world for four days of dynamic, virtual programming focused on research, biosafety, and global collaboration.

SCHEDULE

May 13

Advancing Research, Safeguarding Health: From Vectors to New Technologies in BSL-4 Environments

May 20

BSL4 Training, Practice, and Human Centered Biosafety

June 2-3

Inactivation to Integration: Strengthening Global High Containment Science and Partnerships

June 10

Global Perspectives on Facility Launch, Cybersecurity, and Communication Strategies

ABOUT THE BSL4ZNET

A global partnership of leading federal animal and public health organizations from Canada, the United States, Germany, the United Kingdom, and Australia. Together, we advance collaboration, innovation, and preparedness through a One Health approach.
